Amendment Under 37 U.S.C. 1.111 and 1.115

In response to the official action mailed July 17, 2003, kindly amend this application as follows:

In the Drawings

Amend Figs. 2A and 2B by inserting reference to PRIOR ART as marked in red in the accompanying drawing.

In the Claims

Kindly amend the claims as follows:

- Handwritten:* 10/1/03
1. (amended) A unilayer flexible tensile performance fabric comprising a base fabric having a predetermined design of a pattern continuously formed therein by a step of selectively manipulating and chain-stitching into said ^{base} fabric at least one dissimilar high performance fiber into said base fabric in the same layer wherein said step of manipulating is computer controlled and and a unilayer fabric is formed.
 2. (original) The textile fabric of claim 1 wherein said base fabric is formed of fibers having a tensile modulus of elasticity of 3,000 kg/mm² or more.
